Art Unit 1711

The finality of the Office action of Paper No. 8 is hereby withdrawn.

All remaining rejections and/or objections follow.

Claims 12, 15 and 16 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicants regard as the invention.

It is not clear what a non-conjugated diene having a total of 4 carbon atoms might embrace given the fact that a diene having only 4 carbon atoms would necessarily have to have two conjugated carbon atoms and the minimum number of carbon atoms in a non-conjugated diene would be 5, not 4.

Claims 54-60 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicants regard as the invention.

The specification as filed does not disclose the structure shown in claim 54 as part of a composition and the structure is therefore new matter.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or

on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 12 is rejected under 35 U.S.C. § 102(b) as being anticipated by Riou et al. (USP 3,330,886).

Riou et al. disclose a polyvinyl chloride grafted with a monomer which may include non-conjugated diene monomers such as divinyl benzene or a polyalkylene glycol dimethacrylate or allyl acrylate. Note claim 1 of the patent in this regard.

Applicants' remarks are moot since all previous rejections and/or objections have been withdrawn.

Claims 13-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Mullis whose telephone number is (703) 308-2820. The examiner can normally be reached on Monday-Friday from 9:30 to 6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck, can be reached on (703) 308-2462. The fax phone number for this Group is before final (703) 872-9310 and after final (703) 872-9311.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-2351.
